

13EYES

ANNUAL MEETING

September 4 - 6, 2026
Belgrade

ESE Young Endocrine Scientists ANNUAL MEETING Ložionica, Belgrade, Serbia *SCIENTIFIC PROGRAMME*

DAY 1 – Friday

Registrations opens at 12.00 h

MEETING OPENING CEREMONY

14.00 h Opening & Welcome

EYES Co-Chairs | Local Organising Committee | ESE Representative

14.15 h Introductory Presentation from EYES Members

EYES Co-Chairs

14.30 h Invited Lecture 1

Moderators: Antoan Stefan Šojat (LOC) and Kristina Saravinovska (EYES)

Anne Jouinot (France)

Steroids, Pituitary and Adrenal Disorders

15.00 h Session 1 – Pituitary & Neuroendocrinology

Moderators: Zvezdana Jemunović (LOC), Karin Zibar (EYES), Julia Beck (EYES)

Oral Communications 1 – 15.00 – 16.30 h (presentation 7 min + discussion 2 min)

	Area	Author	Country	Abstract Title
1	NE13	Maria Borysowicz	Poland	Neuropsychiatric Disturbances in Patients with Cushing's Syndrome Are Highly Prevalent and May Represent the Initial Manifestation of the Disease: The ERCUSYN Krakow Database
2	NE7	Enes Üçgül	Türkiye	A Simple Clinical and Biochemical Prediction Score for Distinguishing Ectopic ACTH Syndrome From Cushing Disease
3	NE12	Ainaa Nabeelah Ahmad Shahrizan	United Kingdom	Clinical Characteristics, Management and Outcomes of Severe Hyponatraemia: A Multicentre Observational Study
4	NE8	Ivana Cekić	Serbia	Clinical presentation and long-term pituitary function after apoplexy: a single-center experience
5	NE6	Joan Gil	Spain	Molecular Mechanisms of Persistent Endocrine Myopathy: Beyond Biochemical Remission
6	NE14	Samama Rafi	United Kingdom	Surveillance to Standardisation: Healthcare Professionals' Views on Current Practices of Hyponatraemia Management and the HypoNa-RESCUE Programme
7	NE5	Emanuele Varaldo	Italy	Neurophysin I in community-acquired pneumonia: prognostic value and association with renal function
8	NE3	Tea Shehu Kolnikaj	Albania	Large AIP Deletions: Do They Present a Distinct Clinical Phenotype?
9	NE15	Paweł Sojka	Poland	Enhanced oxidative damage in multihormonal hypopituitarism: a prospective study assessing the impact of hormone replacement therapy.
10	NE17	Rushikesh Dighe	India	Quality Of Life And Life Satisfaction In Panhypopituitarism: Determinants Of Patient-Reported Outcomes In An Indian Cohort

16.30 h Invited Lecture 2

Moderators: Natalija Antic (LOC), Clara Lazzaretti (EYES)

Marija Kundaković (USA)

Epigenomic programming of brain plasticity and disease risk by ovarian hormones

17.00 – 18.00 h Coffee Break & Guided Poster Session 1

Moderators: Kristina Stepanovic (LOC), Tamara Dojcinovic (EYES) (guided poster 2 min)

1	AD11	Jan Domański	Poland	Prognostic Value of the S-GRAS Score in Adrenocortical Carcinoma: A Single-Center Retrospective Cohort Study
2	AD13	Data Kekutia	Georgia	Adrenal Incidentalomas in a Georgian Endocrine Cohort: Clinical, Radiological and Biochemical Characteristics
3	AD12	Mario Mejašić	Croatia	Metastatic Parotid Carcinoma as a Rare Cause of Ectopic Cushing Syndrome: Two Case Reports
4	AD16	Nata Joksimovic	Serbia	Secondary Adrenal Insufficiency With Thyroid Dysfunction Induced by Immune Checkpoint Inhibitors: A Case Series
5	AD17	Stefania-Alexandra Bunceanu	Romania	Double Trouble in the Adrenals: Plurihormonal Hypersecretion in Bilateral Adrenal Adenomas
6	AD05	Julia Daukszewicz	United Kingdom	Case Report: A rare genetic mutation in H3F3A gene causing recurrent paragangliomas and giant cell tumours of the spine.
7	ER03	Elina Nitochkina	Russia	An independent validation of an online calculator for predicting variants of the MEN1 in patients with manifestation of multiple endocrine neoplasia syndrome type 1
8	ER07	Aleksandra Gamrat-Żmuda	Poland	Hypokalemia Persists Across the Spectrum of Ectopic Cushing's Syndrome Despite Marked Etiology-Specific Phenotypic Differences
9	ER05	Matilda Pudić	Croatia	Acute Kidney Injury Due to Severe Hypercalcemia as the Initial Presentation of Parathyroid Carcinoma: A Case Report
10	ER06	Martyna Kania	Poland	Widely metastatic iodine - avid follicular thyroid carcinoma with initially benign thyroid histology

11	ER01	Sena Kodalak	Türkiye	A Multimodal and Individualised Treatment Approach in a Young Patient with Metastatic Paraganglioma
12	NE02	Gökberk Gözükan	Türkiye	Baseline Luteinizing Hormone Predicts Prolonged Hypogonadism in Men with Prolactinomas Despite Biochemical Remission: A Retrospective Cohort Study
13	NE09	Simone Antonio De Sanctis	Italy	Craniopharyngiomas: Clinical and Surgical Outcomes: Results of a Single-Center Retrospective Study
14	NE11	Luigi Demarchis	Italy	Proteins involved in the neutrophil degranulation pathway of somatotroph tumors and correlations with proliferation and invasiveness
15	NE04	Maria Komisarz-Calik	Poland	Sex-related and age-related differences in patients with prolactinoma – a retrospective single-center study
16	NE19	Elene Gabunia	Georgia	Kallmann Syndrome missed in infancy: Diagnostic Delay Despite Early Clinical Red flags

18.00 h Session 2 – Adrenal & Cardiovascular Endocrinology

Moderators: Mia Manojlović (LOC), Marc P. Schauer (EYES), Louis Thomeret (EYES)

Oral Communications 2 – 18.00 – 19.30 h (presentation 7 min + discussion 2 min)

1	AD15	Burak MENEKŞE	Türkiye	Plasma Aldosterone-to-Potassium Ratio as a Marker of Hypertensive Retinopathy in Patients with Primary Aldosteronism
2	AD09	Olha Prybyla	Ukraine	Neuroregulatory Axes of Chronic Stress and Carbohydrate Metabolism Dysregulation in Ukrainian Military Personnel During the Full-Scale War
3	AD07	Ceren Tufan	Türkiye	Ocular Findings and Retinal Microvascular Alterations in Patients with Mild Autonomous Cortisol Secretion: An OCTA-Based Case-Control Study
4	AD01	Merve Korkmaz Yilmaz	Türkiye	Diagnostic Value of Hair Cortisol in Mild Autonomous Cortisol Secretion
5	AD02	Meryem Eladla	Morocco	Are Non-Functioning Adrenal Adenomas Truly Metabolically Neutral? Determinants of Cardiometabolic Risk
6	AD03	Myrsini Chamakioti	Greece	DASS-21 stress severity is associated with altered diurnal salivary cortisol ratio in Greek endocrinology patients: a pilot study

Welcome Reception & Networking Evening

19.30 h – Dinner & Cocktails at Ložionica

DAY 2 – Saturday

9.30 – 10.00 h Workshop Session 1

Aleksandra Buha Đorđević (Serbia)

How to Write a Successful Grant Proposal

10.00 h Session 3 – Reproduction & Infertility

Moderators: Natalija Antić (LOC), Francesco Costantino (EYES), Kristina Saravinovska (EYES)

Oral Communications 3 – 10.00 – 11.30 h (Presentation: 7 min • Discussion: 2 min)

1	EE1	Yuliia Bandrivska	Ukraine	Endocrine-metabolic and hepatic effects of subtoxic cadmium and lead exposure under varying dietary phosphate intake in rats
2	RP08	Elisa Senni	Italy	Sexual Dysfunction in Male IBD Patients on Advanced Treatments: Insights into a Neglected Dimension of Quality of Life
3	RP05	Jhanvi Sawlani	United Kingdom	Exploring Lived Experience of Eating Disorders and Disordered Eating in Women with Polyendocrine Metabolic Ovarian Syndrome
4	RP09	Giada Mercanile	Italy	Human primary granulosa cells did not replace Sertoli cells in enhancing Leydig cell response to gonadotropins
5	RP07	Elena Pavicic	Switzerland	The association between neuroendocrine markers and climacteric symptoms in postmenopausal women: a cross-sectional study
6	RP04	Kyra Mehra	United Kingdom	Iatrogenic Menopause and Risk of Dementia: A Systematic Review and Meta-analysis

11.30 – 12.30 h Coffee Break & Guided Poster Session 2 (Guided Poster)

Moderators: Petra Popović (LOC), Tamara Dojcinovic (EYES) (Guided poster: 2 min)

1	NE01	Tijana Tepić	Bosnia and Herzegovina	Panhypopituitarism Following Hantavirus-Induced Hemorrhagic Fever with Renal Syndrome: A Case Report
2	NE10	Mădălina-Bianca Stan	Romania	Therapeutic burden in refractory acromegaly: from recent diagnosis to long-standing disease
3	RP02	Robert Badan	Romania	Urinary and serum iodine status during pregnancy and association with biochemical and inflammatory markers in a cohort of pregnant women from southern Romania
4	RP01	Arivarasan Barathi	India	Metabolic Syndrome in Women with Polycystic Ovary Syndrome: Prevalence, Clinical Correlates, and Predictors from South India
5	RP03	Filip Tomovic	Montenegro	Fertility Induction in DAX1-Related Congenital Adrenal Hypoplasia and Hypogonadotropic Hypogonadism Complicated by Stage F4 Cirrhosis
6	RP10	Željko Ivošević	Serbia	Phenotype over genotype: clinical diagnosis and sequential hormonal therapy in a young male with Kallmann syndrome and negative NGS
7	TR08	Ketevan Lomidze	Georgia	Predicting ICI-Induced Hypothyroidism: Insights into Early Biomarkers
8	TR12	Bojan Markovic	Serbia	Diagnostic Challenges in Thyroid Eye Disease
9	TR10	Ahmed Tayar Sadeeq	Iraq	A Shared Plate, A Shared Disease: An Epidemiological Cluster of "Hamburger Thyrotoxicosis" in Cohabiting Young Men
10	TR05	Nikola Zanković	Montenegro	The Curious Case of Concomitant Graves' Disease, Papillary Thyroid Carcinoma and Premature Ovarian Insufficiency: A Complex Endocrinological Puzzle
11	TR09	Azri Haji	Iraq	Infertility and Proximal Myopathy due to Hoffman Syndrome; Case report from Duhok
12	TR04	Anand C Sonwane	India	Pediatric Graves' Disease: Clinical Profile and Treatment Outcomes in a Case Series From Tertiary Care Hospital
13	CB04	Seren Aksun	Türkiye	Tumor-Induced Osteomalacia: Diagnostic Delay Associated with Unrecognized Hypophosphatemia
14	CB05	Luka Kurtović	Croatia	Palopegteriparatide in Chronic Hypoparathyroidism and Malabsorption: A Case Report

15	CB07	Salome Batsashvili	Georgia	Parathyroid Hyperplasia Mimicking a Thyroid Nodule in Autoimmune Thyroiditis: A Diagnostic Challenge
16	CB01	Elsayed Ghonamy	Egypt	Primary hyperparathyroidism, an underappreciated Metabolic Derangement Causing Chronic Constipation

12.30 h Session 4 – Endocrine-Related Cancer

Moderators: Tijana Petković (LOC), Marc P. Schauer (EYES), Louis Thomeret (EYES)

Oral Communications 4 – 12.30 – 14.00 h (Presentation: 7 min • Discussion: 2 min)

1	ER04	Konstantinos Iliakopoulos	Greece	Neurosymbolic multi-agent LLM versus unimodal LLM, endocrinology specialists, and surgeons on a USMLE-style endocrine surgical oncology examination
2	ER02	Vincenzo Cubitosi	Italy	Integrated Clinical, Genetic and ⁶⁸ Ga-DOTATATE PET Characteristics of Head and Neck Paragangliomas: A Single-Center Cohort Study
3	AD18	Greta Galante	Italy	Integrated steroidomic and untargeted metabolomic profiling reveals distinct circulating signatures of adrenocortical carcinoma
4	AD14	Mirjana Đukić	Croatia	Recovery of Adrenal Function After Adjuvant Mitotane Discontinuation in Patients with Adrenocortical Carcinoma: Results from Two Referral Centers
5	AD08	Rosa Catalano	Italy	Tumour-associated macrophages heterogeneity in adrenocortical adenomas and carcinomas: evidence for cortisol-dependent and sex-specific polarisation
6	AD06	Vincenzo Giannatiempo	Italy	Endocrine immune-related adverse events in cancer patients treated with immune-checkpoint inhibitors: a single center cohort study.

14.00 – 15.00 h Lunch Break

15.00 h Session 5 – Bone Metabolism & Thyroid Disease

Moderators: Ivana Babić (LOC), Karin Zibar (EYES), Dorota Filipowicz (EYES)

Oral Communications 5 – 15.00 – 16.30 h (Presentation: 7 min • Discussion: 2 min)

1	TR11	Carmela Perri	Italy	Differential TSH Receptor signaling induced by LH and hCG
2	TR07	Revah Çankaya	Türkiye	Preoperative calcitonin-to-CEA ratio as a predictor of lymph node metastasis in medullary thyroid carcinoma: a single-center retrospective study
3	TR01	Mustafa Ayberk Ardic	Türkiye	Beyond the FT3/FT4 Ratio: A Machine Learning Decision Support Model for the Differential Diagnosis of Thyrotoxicosis
4	TR02	David Fisher	Israel	One-Year Graves' Disease Relapse Risk After TRAb-Assisted vs. Clinician-Guided Methimazole Withdrawal
5	TR03	Ana Talevska	North Macedonia	Multi-diagnostic thyroid burden, selected comorbidities and six-fold geographic variation in a nationwide eHealth registry analysis from North Macedonia
6	TR13	Monica Latia	Romania	Preoperative Multiparametric Ultrasound Assessment of Diffuse Sclerosing Variant Papillary Thyroid Carcinoma: A Single-Center Case Series
7	TR06	Mariami Zabakhidze	Georgia	Anti-TPO Antibody Titer as an Independent Correlate of Insulin Resistance and Dyslipidemia: A Cross-Sectional Study Across Euthyroid, Hypothyroid, and Healthy Cohorts
8	CB08	Alessandro Fanti	Italy	Romozosumab versus Denosumab after Teriparatide in women with severe post-menopausal osteoporosis: A Real-World Retrospective Study
9	CB03	Fabio Bioletto	Italy	Evaluation of trabecular bone score (TBS) as a predictor of incident fragility fractures in patients with acromegaly: an international, retrospective cohort study
10	CB02	Jovana Milekic	Bosnia and Herzegovina	Metabolic Profile of Normocalcemic Primary Hyperparathyroidism
11	CB06	Mari Minasyan	Poland	High Burden of Osteoporosis and Fragility Fractures in Cushing's Syndrome: A Call for Active Screening

20:00 h | EYES Social Evening
Klub Beton

DAY 3 – Sunday

09.30–10.00 h Workshop Session 2

Aaron Novikoff (Germany)

Obesity & Diabetes Management: GLP-1 and GIP-Based Therapies

10.00 h Session 6 – Diabetes & Obesity

Moderators: Ivica Petrović (LOC), Jua Luis L. Canovas (EYES), Julia Beck (EYES)

Oral Communications 6 – 10.00–11.30 h (Presentation: 7 min • Discussion: 2 min)

1	DB18	Juan Luis López Cánovas	Spain	Dysregulation of the Liver-Adipose crosstalk in metabolic-driven hepatic oncogenesis.
2	DB17	Antonio Pucci	Italy	Switch from Oral Semaglutide to Tirzepatide in Type 2 Diabetes patients in a real-world retrospective cohort study.
3	DB25	Yesset Sagynayev	Kazakhstan	Phenotypes of insulin resistance, β -cell function and inflammation in newly diagnosed adult-onset diabetes: evidence from the Kazakh population
4	DB16	Aspasia Manta	United Kingdom	Long-Term Mortality and Cardiorenal Outcomes Following Hyperosmolar Hyperglycaemic State: A Matched Cohort Study of 1.9 Million People with Diabetes in England
5	DB13	Katarina Jovčić	Serbia	Lipoprotein(a) and cardiovascular events in patients with familial hypercholesterolemia
6	DB15	Amanda Ling Jie Yee	United Kingdom	Healthcare Professionals' Perspectives on DKA Care and DEKODE Implementation: A Qualitative Study
7	DB04	Oben Belen	Türkiye	Application of the NAFCS Scoring System in Monogenic Hypertriglyceridemia Patients: A Single- Center Turkish Cohort Study
8	DB21	Tania Ruhee Shahid	United Kingdom	Rethinking Postprandial Hypoglycaemia: Can Continuous Glucose Monitoring Replace Mixed Meal Test? A Real-World Data from a UK Secondary Care Centre
9	DB12	Deniz Turkum Atikcan	Türkiye	Incretin-based therapy lowers routinely available systemic-inflammation indices partly independent of weight loss in obesity: a 6-month real-world cohort
10	DB23	Murat Buğra Görgülü	Türkiye	MASLD in Non-functioning Adrenal Adenomas and Its Association with Post-DST Cortisol

11.30 h Invited Lecture 3

Moderators: Antoan Stefan Šojat (LOC), Francesco Costantino (EYES)

Bogdan Dugić (Serbia)

Automating Medical Research: Tales from Academia and Industry

12.00–13.00 h Coffee Break & Guided Poster Session 4 (Guided Poster)

Moderators: Sara Odalović (LOC), Clara Lazzaretti (EYES) (Guided poster: 2 min)

1	RP06	Ilma Sibegovic	Bosnia and Herzegovina	Effects of GLP-1 Receptor Agonists on Ovulatory Function and Reproductive Hormonal Parameters in Women with Polyendocrine Metabolic Ovarian Syndrome: A Systematic Review
2	DB06	Sofija Ignjatović	Serbia	Gut Microbiota Alterations and Microbiota-Derived Indole-3-Carboxaldehyde Are Associated with MASLD
3	DB20	Lamija Mlačo Skenderi	Bosnia and Herzegovina	Maintenance Strategies Following GLP-1/GIP-Based Obesity Pharmacotherapy: A Systematic Review and Exploratory Meta-analysis
4	DB10	Cvetanka Volkanovska Ilijevska	North Macedonia	Right Atrial Reservoir Dysfunction: An Early Manifestation of Right Heart Remodeling in Obesity
5	DB02	Ioana-Maria Crasan	Romania	Adiposity, vitamin D status, and low-grade inflammation in children and adolescents in Romania
6	DB14	Yağmur Göksoy Solak	Türkiye	Short- and medium-term effects of dapagliflozin on body composition and muscle function in type 2 diabetes
7	DB07	Kalyaani Persad	United Kingdom	Feasibility of Implementing DEKODE Surveillance Registry in different healthcare settings: Pilot data from Uzbekistan, Serbia and India
8	DB27	Muhammad Pradhiki Mahindra	United Kingdom	Atypical Gestational Diabetes: A Prospective Observational Study of Insulin and C-peptide Curves and Pregnancy Outcomes
9	DB09	Radmila Milosheska	North Macedonia	Beyond BMI: Body Composition Analysis and Metabolic Profile in Adults with Obesity and Type 2 Diabetes Mellitus
10	DB03	Petar Gogić	Serbia	The importance of early assessment of fasting glycaemia and insulinemia in patients with early-stage metabolic syndrome
11	DB26	Roxana Pui	Romania	Beyond Body Weight: The Influence of Dietary Patterns on Body Composition

12	DB19	Banu Ertürk	Türkiye	Beyond Type 2 Diabetes: Young-Onset Severe Insulin Resistance and Familial Cardiometabolic Disease in a Carrier of a CELA2A Variant
13	DB05	Tahir Abdussalam	Nigeria	Double combination therapy: Melatonin and prazosin improved lipid profile in diet-induced obesity in male Wistar rats
14	DB28	Jovana Zlatkovic	Serbia	The Gravitostat: Current Evidence for a Body Weight Homeostat
15	DB08	Tamara Ninkovic	Bosnia and Herzegovina	When iron becomes too much: diabetes as a first clue to hidden hemochromatosis – a case report
16	DB01	Raghav Bhargava	United Kingdom	Glycaemic variability reveals rare insulin autoimmune syndrome

13.00 h Poster & Oral Communications Awards Session

EYES Committee

13.30 h Congress Closing Ceremony followed by Lunch

LOC | EYES Co-Chairs
